

# Centerville Village Sewer Expansion Project-South Phase

## *Project at a Glance*

### PROJECT GOALS

The Centerville Village Sewer Expansion Project - South Phase will expand sewer service south of Route 28 in Centerville, with approximately 160 properties to be connected to the municipal sewer system.

### PROJECT LOCATION

- Old Stage Road, from Route 28 to Main Street (Centerville)
- Main Street (Centerville), from Old Stage Road to South Main Street
- Craigville Beach Road, from South Main Street to the Centerville River Bridge
- Old Post Road, from Old Stage Road to Phinney's Lane
- Park Avenue, from Bacon Lane to Main Street (Centerville)
- Bacon Lane, Linden Avenue, and Maple Avenue

### PROJECT TIMELINE

Project construction is anticipated from **Fall 2026 - 2029**.

After the sewer is installed and commissioned, the Barnstable Board of Health will formally notify property owners about sewer connection requirements and timelines.

### WHAT TO EXPECT DURING CONSTRUCTION

- Construction updates and traffic impacts will be shared in many ways including: standard mail, email, social media, mobile app alerts, and door-to-door outreach.
- At times, alternate routes may be necessary to access your home or business.
- Traffic control personnel and construction inspectors will be on-site daily to assist.
